Brand Guidelines

IVAH MEDIA
BY: AYISHA KAMARUDHEEN

Welcome to the Saj Development Brand Guidelines.

This document establishes the foundational voice, visual rigor and architectural principles that define SAJ Development across every touchpoint. Rooted in structural discipline, authentic Emirati heritage and timeless luxury, SAJ Development is conceived to leave an indelible, enduring mark on Dubai's evolving skyline.
A luxury brand is sustained by unwavering consistency. The rigorous application of these standards ensures visual harmony, institutional clarity and unmistakable prestige protecting the poise, character and integrity of SAJ Development across every physical, digital and interpersonal experience.

The SAJ mark was not conceived in an agency boardroom. Its central icon the leaping Arabian horse is the direct visual translation of our founder's life, passion and championship journey. As an Emirati national and seasoned equestrian athlete with multiple prestigious championship victories, the founder recognized an unbreakable parallel between competitive horsemanship and world-class architectural development.
Victory in high-level equestrian sport is never an accident of speed. It is born of calculated pacing, supreme patience, intense mutual trust and absolute command of every stride. This exact discipline governs SAJ Development.

About

We don’t just develop properties; we create lasting landmarks. Combining architectural vision with technical precision, SAJ Development delivers exceptional spaces designed for discerning communities and an elevated standard of living.

By bringing together innovative thinking, refined design, and uncompromising attention to detail, we create developments that go beyond functionality. Every project is thoughtfully conceived to inspire, endure, and leave a distinctive mark on Dubai’s evolving skyline.

Mission

To create purposeful developments through visionary design, architectural excellence, innovation, and precision, shaping exceptional spaces that inspire meaningful experiences, enhance communities, and deliver lasting value for generations to come.

Vision

To become one of the region’s most trusted and forward-thinking real estate developers, creating landmark destinations that redefine modern living, elevate communities, and leave a lasting impact on the cities we shape.

VALUES

Visionary Thinking
Every development begins with a clear vision, thoughtful planning, and a commitment to shaping spaces with purpose.

Design Excellence
We pursue architectural distinction, refined craftsmanship, and uncompromising attention to detail in every project.

Innovation
We embrace modern technologies, intelligent solutions, and forward-thinking approaches to create developments built for the future.

Integrity
We build lasting relationships through transparency, accountability, reliability, and trust at every stage of our work.

Lasting Value
We create developments that go beyond the present enhancing lifestyles, strengthening communities, and delivering enduring value for generations to come.

Promise

Our promise is to deliver excellence without compromise. We combine visionary thinking, architectural precision, innovative design, and meticulous execution to create developments that stand apart and endure.

By understanding the evolving needs of modern communities and the aspirations of our customers, we create thoughtful spaces that balance functionality, elegance, and lasting value. From concept and planning to construction and completion, we remain committed to quality, consistency, and attention to detail ensuring every development reflects the highest standards of craftsmanship, sophistication, and integrity.

We don’t simply build properties; we create places designed to inspire, enrich lives, and leave a lasting legacy.

Logo Usage

The SAJ Development logo combines a bold, contemporary wordmark with a distinctive horse emblem inspired by the Arabian horse, a powerful symbol deeply rooted in the heritage and cultural identity of the UAE and the wider Middle East. The horse represents strength, nobility, endurance, freedom, and ambition—qualities that reflect the spirit of the region and SAJ Development's vision for progress. Its flowing form suggests movement and forward momentum, symbolizing a company that embraces growth while remaining connected to its roots.

The strong "saj" wordmark provides a modern and confident foundation, while the dynamic horse creates a distinctive visual signature. Together, they balance heritage with contemporary ambition, representing SAJ Development as a brand that respects the legacy of the region while building toward its future. Designed for versatility, the identity carries a strong presence across architectural signage, property developments, corporate materials, digital platforms, and marketing communications, creating a recognizable and enduring expression of the SAJ Development brand.

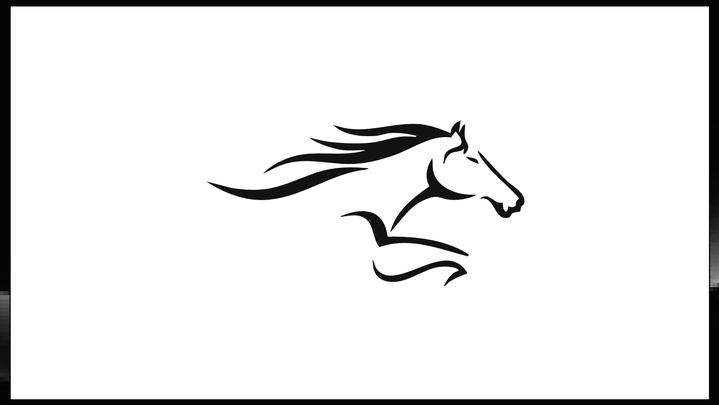
Logo Usage

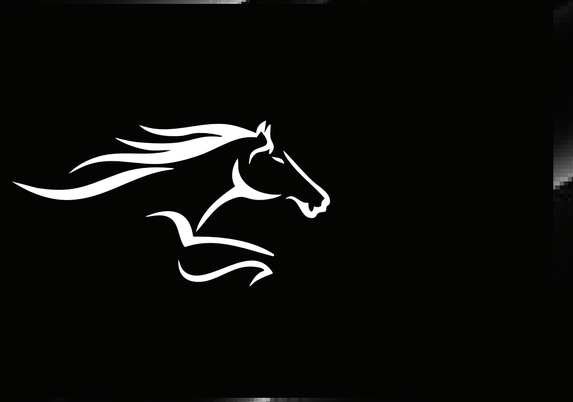
To ensure maximum visibility and visual impact, the logo must be placed on high-contrast backgrounds that maintain the clarity of our primary signature. Use the primary Black version on light surfaces and the reversed white version on dark backgrounds to uphold the brand's institutional authority.

The Icon

The SAJ Development icon is derived from the distinctive horse emblem within the logo, serving as a bold and recognizable shorthand representation of the brand. Inspired by the Arabian horse, the symbol reflects the region’s rich heritage while expressing qualities of strength, nobility, endurance, freedom, and ambition.

Its dynamic silhouette introduces a sense of movement and forward progress, representing SAJ Development’s vision of shaping the future while remaining connected to its Middle Eastern roots. Designed with a clean and refined visual language, the icon remains distinctive and versatile across property signage, digital platforms, architectural applications, and brand communications.





Wordmark

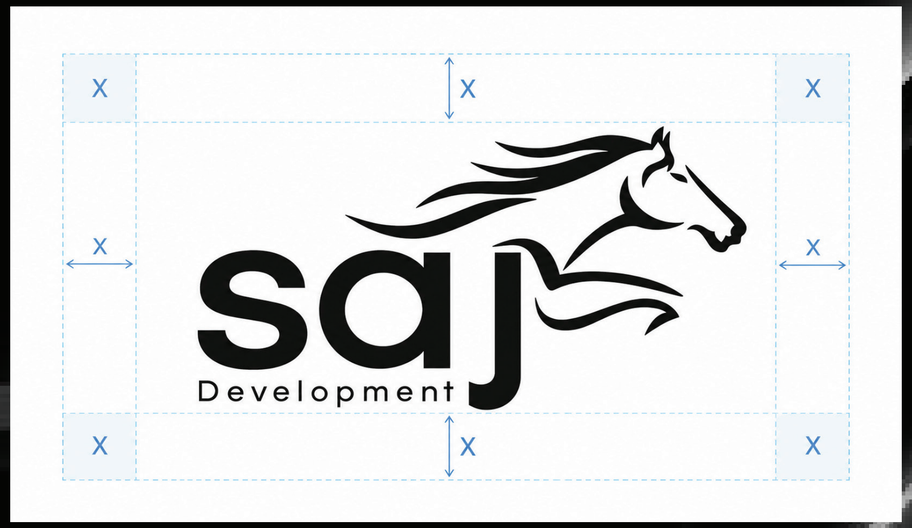
The SAJ Development wordmark is designed as a bold and contemporary typographic identity that balances strength, sophistication, and modern architectural character. Built with clean geometric letterforms, confident proportions, and a refined visual structure, the wordmark creates a distinctive and professional presence.

The strong “saj” lettering communicates stability and confidence, while the refined “Development” descriptor adds balance and clarity. Together, they create a cohesive wordmark that reflects SAJ Development’s modern vision, premium positioning, and commitment to creating enduring spaces.

Clear space

The highlighted area surrounding the SAJ Development logo represents the minimum clear space required around the identity. No text, graphics, illustrations, imagery, or other visual elements should enter this protected area, ensuring the logo maintains maximum visibility, clarity, and visual impact across all applications.

The “X” measurements indicate equal spacing around the logo. The X unit is based on the height of the “Development” wordmark, and the same measurement should be maintained on the top, bottom, left, and right sides of the logo.



Minimum Size

To preserve legibility and brand recognition, the SAJ Development logo should never be reproduced below the minimum approved size. Scaling the logo below these dimensions may compromise the clarity of the horse emblem, SAJ wordmark, and “Development” descriptor, particularly across smaller applications.

The minimum size requirements illustrated in this guide ensure consistent readability and maintain the visual integrity of the SAJ Development identity across both print and digital applications.

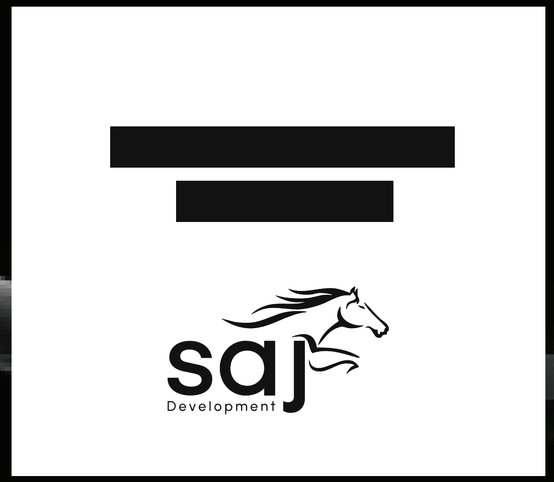
Placement

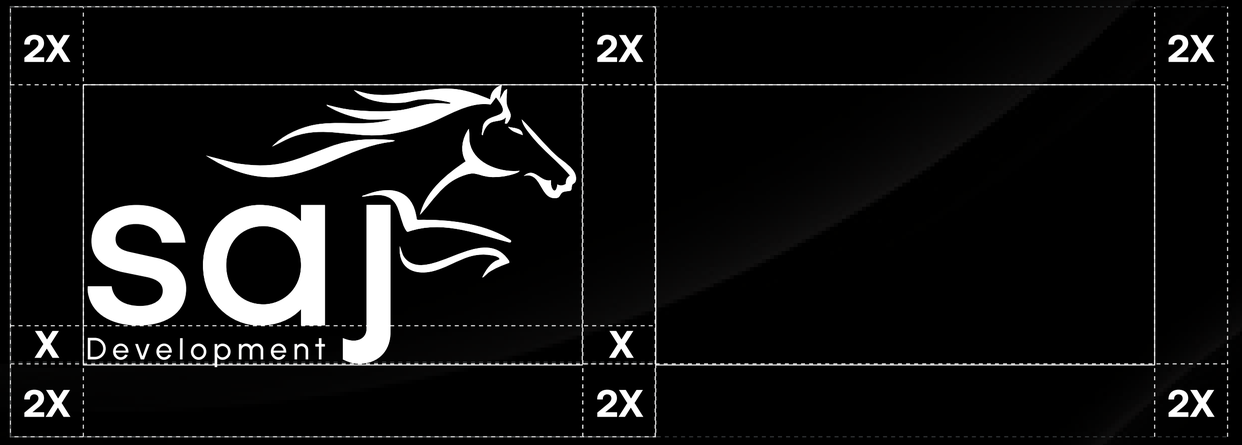
To maintain a consistent and recognizable brand presence across all applications, the Saj logo should be positioned thoughtfully within every layout. While flexibility is allowed depending on the composition and content structure, the preferred placement for portrait formats is bottom-center to create a clean and balanced foundation, while Landscape layouts should position the logo in the bottom-right corner to support a natural visual flow. For motion graphics, animated assets, or dynamic compositions, a centered logo placement is recommended to maximize visibility and maintain strong brand focus throughout transitions and layered visual environments.



Partner & Sponsors

When displaying the Saj logo alongside partner brands, maintain visual balance and clarity by following these rules:

Spatial Separation: Ensure a distinct buffer zone between logos to maintain a clean and elevated presentation.
Visual Parity: Scale all logos proportionally to create a balanced and professional partnership hierarchy.
Core Standards: Always preserve Saj's minimum clear space and sizing requirements across all co-branded applications.



Unacceptable Use

1. Do not flip lockup
2. Do not distort horizontally
3. Do not add a drop shadow
4. Do not change relationship of elements
5. Do not outline
6. Do not distort vertically
7. Do not box
8. Do not change the typeface

04. Typography

Primary Typeface Page 23
Secondary Typeface Page 24

Primary Typeface

Typography plays a vital role in expressing the SAJ brand. The identity is built around primary typeface:
Aeonik Bold for bold headlines, posters, and billboard applications, and Aeonik Regular for body text, digital experiences, and everyday communications. Aeonik create a clear, sophisticated, and consistent visual language across all brand touchpoints.

Aeonik

Secondary Typeface

Work Sans serves as Saj’s secondary typeface, selected for its modern clarity, versatility, and refined readability across both print and digital applications. It is best suited for body copy, supporting information, and content-heavy layouts where legibility and structure are essential. To preserve the strength and sophistication of the brand identity, Work Sans should not be used for primary brand messaging such as headlines, campaign statements, or product names on packaging.

5.Graphic Elements

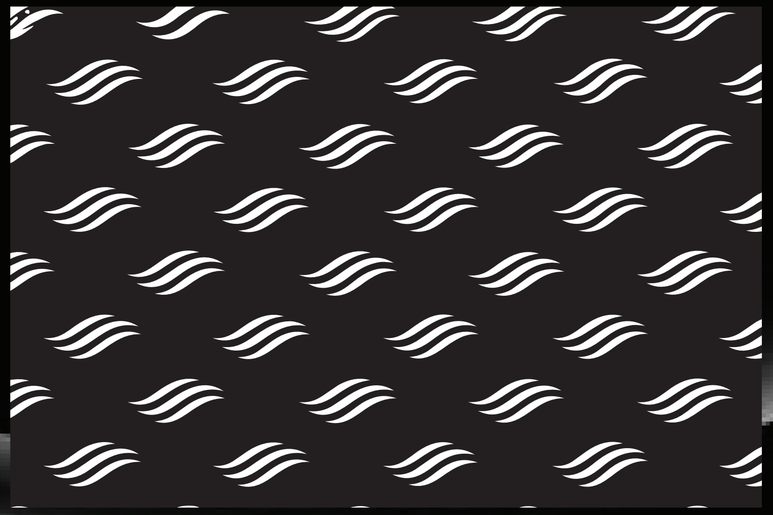
Icons Page 26
Brand Pattern Page 27

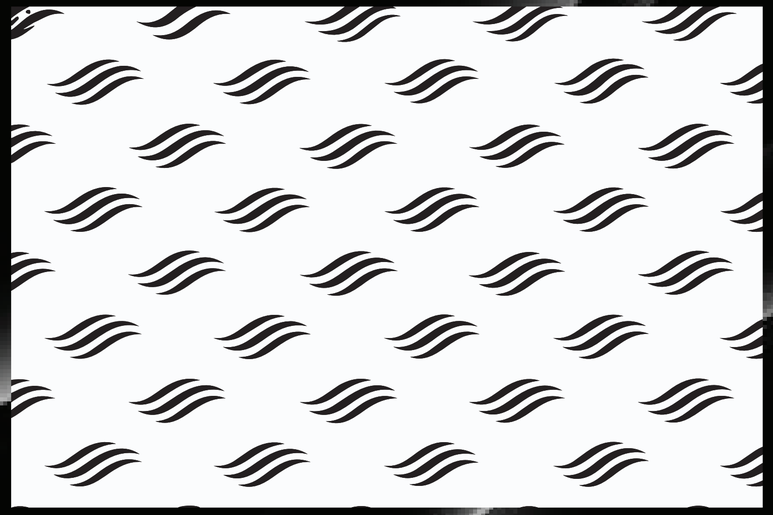
Icons

The SAJ icon set consists of 24 minimal, single-color line icons in Black & White, designed with a consistent stroke weight and geometric simplicity inspired by the brand monogram. They are used across presentations, reports, and digital interfaces to support content with clarity and structure while maintaining a clean, professional aesthetic. All icons must remain uniform in size and use an outline-only style, strictly in Black & White.

Brand Pattern

The SAJ primary pattern is created from repeated elements derived from the brand monogram, arranged in a structured composition to form a distinctive and cohesive visual motif. The pattern represents connection, structure, and continuity while maintaining the brand’s clean, modern, and sophisticated aesthetic.



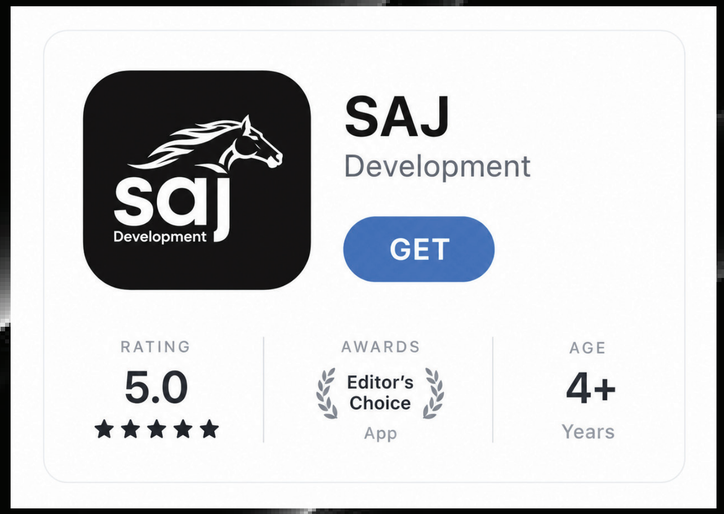


6.Digital Icon Applications

Favicon Page 29
App-style icon Page 30

Favicon

The SAJ favicon features the SAJ icon-only mark centered within a solid background, creating a clean and recognizable digital presence. Use only the approved favicon files in their original proportions and colors. Text, effects, background alterations, or distortions are not permitted to ensure consistent visibility across browser tabs, bookmarks, and digital platforms.



App-style icon

The SAJ app icon uses the SAJ icon-only mark centered within a rounded square. The primary version features the approved SAJ brand colors, while the dark mode version uses a dark background to maintain visibility and consistency across digital platforms. Text, gradients, shadows, or shape modifications are not permitted. Always use the approved platform-ready files to ensure clear and consistent rendering across all device sizes.

07. Stationery

Business Card	Page 32

Business Card

The SAJ business card collection features premium, refined designs that reflect the brand’s sophisticated and modern identity. Through carefully selected materials, elegant typography, and meticulous craftsmanship, each card delivers a distinctive yet consistent brand experience while maintaining the integrity of the SAJ visual identity.

Letterhead

The SAJ letterhead collection features premium, refined designs that reflect the brand's sophisticated and modern identity. Through carefully selected layouts, elegant typography, and meticulous craftsmanship, each letterhead delivers a distinctive yet consistent brand experience while maintaining the integrity of the SAJ visual identity.

Envelope

The SAJ Development envelope maintains a clean, premium, and professional appearance, with the logo positioned subtly on the front and the horse emblem used as a refined brand detail on the flap. The return address and supporting details are kept discreet and minimal to preserve the sophisticated character of the identity.

Id Cards

The SAJ Development ID card features a clean, professional design with the logo prominently positioned and employee information clearly organized for easy identification. It includes essential details such as the employee photo, name, designation, employee ID, and QR code. Designed in line with the SAJ Development visual identity, the card maintains a refined and premium appearance while ensuring clarity and functionality. Always use the approved template, maintain consistent alignment, and preserve adequate clear space around the logo and horse emblem.

Note Pad & Pen

The SAJ Development notepad and pen set combines everyday functionality with a refined and professional brand presence. Featuring the distinctive SAJ Development logo, clean typography, and premium finishes, the set reflects the brand’s commitment to quality, sophistication, and attention to detail. Designed for consistency across corporate environments, it creates a cohesive and elevated brand experience.

Polo T-Shirt

The SAJ Development polo shirt reflects the brand’s modern and sophisticated identity through clean lines, premium materials, and subtle detailing. Featuring an embroidered SAJ Development logo and horse emblem, the design creates a refined and recognizable brand presence while maintaining a professional appearance.

Cap

The SAJ cap reflects the brand’s commitment to timeless design, refined craftsmanship, and contemporary elegance. Featuring a clean silhouette, premium detailing, and the finely embroidered SAJ logo, it combines everyday comfort with a sophisticated expression of the brand, making it a distinctive addition to the SAJ lifestyle and corporate identity.

Mugs & Water Bottles

The SAJ mug and water bottle combine everyday functionality with refined brand expression. Crafted with premium materials and durable finishes, each piece features subtle SAJ branding that reflects the brand’s commitment to quality, elegance, and thoughtful design while maintaining a sophisticated and consistent brand presence.

Gifts

The SAJ Development tote bag combines everyday functionality with a refined and sophisticated brand presence. Featuring durable materials, quality construction, and the distinctive SAJ Development logo and horse emblem, it extends the brand identity into everyday use while maintaining a premium and understated aesthetic.

Gifts

The SAJ Development Premium Gift Box draws inspiration from the rich hospitality and gifting traditions of the Arabian Peninsula. Thoughtfully curated with refined essentials such as premium dates, traditional Arabic fragrances, perfumes, and elegant accessories, the collection reflects the warmth, generosity, and cultural heritage of the region. Presented in sophisticated packaging featuring the SAJ Development identity and horse emblem, each gift is designed to create a memorable experience while expressing the brand’s values of heritage, elegance, quality, and thoughtful craftsmanship.

Gifts

The SAJ Development keychain and phone case combine everyday functionality with a refined and distinctive brand presence. Featuring the SAJ Development logo and horse emblem, each accessory extends the brand identity into daily life through clean design, subtle detailing, and premium finishes.

Ribbons

The SAJ branded ribbon adds a refined finishing touch to packaging, gift boxes, and premium promotional materials. Designed to elevate presentation and reinforce the SAJ brand identity, it combines quality craftsmanship with elegant detailing to create a sophisticated and memorable brand experience.

Safety Jacket

The SAJ safety jacket combines functionality, visibility, and professional brand presence. Designed for on-site environments, it incorporates high-visibility detailing and durable materials while maintaining a clean and consistent SAJ identity. The jacket ensures safety and comfort while presenting a professional brand image across construction and development sites.

Site Flags & Safety Helmet

The SAJ safety helmet and site flags combine essential site functionality with a strong and consistent brand presence. Designed to support safety, visibility, and professional presentation across construction environments, they incorporate the approved SAJ branding and colours to create a unified and recognisable project identity.

Billboards & Banners

The SAJ poster and banner system is designed to communicate key messages with clarity, sophistication, and visual consistency. Through refined layouts, strong brand presence, and considered use of imagery and typography, these materials create a distinctive visual impact while maintaining the premium character of the SAJ brand across marketing, corporate, and event environments.

09.Social Identity

Website Look and Feel Page 51
